

DIRECTOR OF PRECONSTRUCTION

TEAM FRISCHHERTZ

Frischhertz Electric Co., Inc., a long-standing leader in commercial, industrial, and technology electrical contracting, is seeking an experienced Director of Preconstruction to oversee all preconstruction operations for our fast growing organization. This is a key leadership role responsible for client engagement, estimating, budgeting, scheduling, risk management, and ensuring accurate, high-quality deliverables that align with company goals across multiple divisions and joint ventures. The Director will collaborate closely with clients, architects, engineers, and internal teams to drive growth, innovation, and client satisfaction.

We are looking for a hands-on, detail-oriented Manager who thrives in a fast-paced environment, enjoys solving complex problems, and wants to make a meaningful impact on a growing company with almost 75 years of history in the Gulf South.

RESPONSIBILITIES:

- Lead and mentor a team of estimators, ensuring accuracy and consistency in all deliverables
- Manage budgets, estimates, proposals, schedules, and value engineering initiatives
- Serve as primary client contact during preconstruction, supporting business development efforts
- Conduct risk assessments, review contracts, insurance, and bonding requirements
- Oversee proposal preparation and presentations to clients and stakeholders

QUALIFICATIONS:

- Bachelor's degree in Construction Management, Electrical Engineering, or related field (Master's preferred)
- 10+ years' experience in electrical estimating, preconstruction, or project management
- Proven leadership experience managing teams and large commercial projects
- Proficiency with Accubid or similar estimating software
- Strong knowledge of electrical systems, codes, and industry standards
- Professional certifications (CPE, PMP, LEED) preferred

WHY JOIN US:

- Competitive salary and benefits package
- Health, dental, vision, and 401(k) with company match
- PTO and paid holidays
- Family-owned company with 75 years of success and a strong reputation
- Opportunity to lead innovation and make a lasting impact in the electrical construction industry

The above description is meant to describe the general nature and level of work to be performed; it is not intended to be an exhaustive list of all responsibilities, duties, and skills required for the position.
